

Change the GSM bands between EU and US

The Wavecom GSM modem (Q2686 and Q2687) are Quad Band GSM, but these four bands are not available at the same time.

At production time, these modems are configured to operate in Europe with the frequencies 900 MHz and 1800 MHz.

To configure these modems to operate in USA (850-1900 MHz), you need to put the following parameter in the comcfg.txt file and reboot the eWON:

```
GsmBand: 5
```

Frequencies	Gsm Band param
850-1900 MHz (USA bands)	5
900-1800 MHz (EU bands)	6
900-1900 MHz (EU + USA)	7
